

SteriChelle Disinfectant

SteriChelle is a disinfectant, cleaner, deodorizer for use in hospitals, nursing homes, hotels, motels, animal quarters and confinement facilities, surgical, mortuary, and laboratory areas, residences and institutions where housekeeping will be of prime importance in controlling the hazard of cross contamination of environmental surfaces. SteriChelle has an effectiveness combined with a stability and low toxicity not found in other disinfectants. ***SteriChelle is the Weapon Of War against the causes of Disease, Illness & Material Destruction.***

When used as directed, if SteriChelle gets on skin, in eyes or is swallowed, medical attention is not required and it is EPA registered to be effective against:

- *Staphylococcus aureus*,
- *Salmonella*
- *Herpes simplex Type 2 virus*
- *Pseudomonas*
- *Mold & Mildew*
- *Pathogenic fungi*
- *Mycobacterium tuberculosis*
- *Influenza A2/Hong Kong virus*

SteriChelle has been tested and studied by Universities and Certified Laboratories worldwide. The results of these test are available for review upon written request.

Properties

Boiling Point:	210°F	Appearance:	Clear Yellow
Vapor Pressure:	N/A	Specific Gravity:	1.005
Vapor Density:	N/A	pH:	6.9
Solubility in Water:	Complete	Evaporation Rate:	N/A
Stability:	Stable	Incompatibility:	Anionic Materials, Strong Oxidizers
Hazardous Polymerization:	No	Decomposition:	None

Advantages

- **Broad spectrum activity** - kills the germs that cause disease and illness.
- **Easy to use** - just add concentrate to water, stable with no activator required.
- **Economical to use** - at use dilution it cost just pennies to use.
- **Lasting activity** - in the lab, exhibited a 30 day residual activity on aluminum surface.
- **Safe to use** - Non-corrosive, non-discoloring, low toxicity, when used as directed.

Directions for use and methods of application

SteriChelle disinfectant concentrate, when mixed with water according to label instructions, can be put in your mop buckets, wiped or sprayed for a contact time of 10 minutes to disinfect, clean and deodorize floors, walls, bathroom fixtures, tile, sinks, garbage pails, restrooms, bedside tables, hospital halls, operating rooms, bedpans, kennels, tables, or any hard surface. Caution: read all label instruction and cautions before handling concentrate.
